Description of Instructor Qualifications:

Highly qualified and Motivational tutors

We currently have 30 tutors on staff and will continue to recruit teaching (Teachers MUST be state certified) and industry professionals to administer the program. All Tutors are carefully screened before being accepted into the program. Each tutor will take a subject assessment test in the desired subject area(s) they wish to tutor, they will be interviewed by the program director, each applicant must present a current résumé and recommendations, and a full background check will be ran on each applicant. This process is to ensure that we have the best tutors available and that they possess the ability to motivate each student to succeed.

A Tutor profile will be created for review by the parents and students, to show that Academic Xcellence Tutors exceed all standards.
