Description of Services:

ABOUT BRAINFUSE ONE-TO-ONE TUTORING:

Brainfuse is the nation's leading provider of one-to-one tutoring services to schools, offering online tutoring in math, reading, and writing (grades 3-12). With Brainfuse, students receive individual attention from carefully selected tutors through our kid-friendly online classroom -- all that is required is a computer with Internet access. Independent studies confirm that students prefer Brainfuse to traditional group tutoring because our one-to-one approach provides students the best tutor-student ratio available and thus greater opportunities to ask questions, participate in sessions, and receive help in critical areas. In addition, Brainfuse offers complete freedom when scheduling (we are available anytime, day or night, 7 days a week).

Description of Instructor Qualifications:

BRAINFUSE TUTORS:

Our tutors are certified teachers and other highly experienced educators. All instructors possess at least a four-year college degree and undergo a rigorous certification process, including background and reference checks, multiple interviews, skills testing, and extensive training.

Description of Evidence of Effectiveness:

EFFECTIVENESS:

Brainfuse's one-to-one tutoring significantly boosts test scores and improves classroom performance. An independent study, conducted by the Chicago Public Schools, indicates that students advance an average of one grade level after 30 Brainfuse tutoring sessions.
