Address: P.O. Box 280251 Houston TX 77228

Description of Services:

Elite provides Academic tutoring to students in all school environments, specializing in at risk, low achieving, disadvantaged students in low performing schools. Academic tutorial subject areas include: Language Arts, Social Studies, Reading, Math, and Science. Educational supplements will occur in different forms depending on the student's need. Forms of Tutorials include: one on one sessions with instructors or tutors for unsatisfactory performance areas, group tutoring sessions with one teacher and an average of fifteen students. Tutoring session will last between one and two hours six days a week Monday - Saturday. Students will learn from approved TEKS material provided by the Elite. Sessions will be held at local schools, parks, community centers, and churches within the district's vicinity.

Description of Instructor Qualifications:

All Instructors with Elite are Highly Qualified in accordance with the standards set by the No Child Left Behind Act and Texas Education Agency. “Highly qualified” instructors, are teachers who hold at least a bachelor's degree, are fully certified in Texas, and demonstrate competency in the core academic subject area they are teaching. In addition to these requirements APC instructors have a minimum of two years teaching experience, passed a criminal background check, consent to random drug testing policies and have effective communication ability with students to ensure learning occurs.

Description of Evidence of Effectiveness:

Elite has sponsored several educational events that have proven to advance the educational needs of the community. Elite has a positive impact on student achievement for low-income, underachieving students in the Houston community as evidenced by TAKS scores for children who participate in informal tutorial sessions. Many of the students in our tutorials maintain honor roll status at their respective schools, consistently have 95% attendance, pass all sections of the TAKS test, and receive Academic Recognition in at least 1 area of the test at the 10TH grade level.
