

**There is individuality; there is community,
There is microcosm; there is macrocosm,
There is visible; there is invisible,
There is randomness; there is organization,
There is reason; there is intuition,
There is mind; there is body,
There is inside; there is outside,
There is motion; there is rest,
There is equilibrium; there is fluctuation,
There is competition; there is cooperation,
There is chance; there is choice,
There is uncertainty; there is predictability,
There is perfection; there is flaw,
There is process; there is product,
There is symmetry; there is asymmetry,
There is theme; there is variation,
There is diversity; there is unity,
There is you, there is me.**
