

## **ART 6**

**Art 6 students will refine the skills acquired in earlier years of art through the exploration of two and three-dimensional art-making activities. They will continue to develop skill in discussing and analyzing their own art, historical works of art, and art in their own environment. Recognizing and using the elements and principles of design will be emphasized.**

**Students will create original works inspired by what they see, know, feel, and imagine. Refinement of skill in the use of a variety of drawing tools and media, and a problem solving approach to creative endeavor will be encouraged in all activities. Multi-step processes will be employed. The Art 6 environment will provide opportunities for students to move about the room and to work in groups.**

**Lessons will include the study of artistic styles and traditions in a variety of world cultures. Students will gain information regarding careers in art and related fields and will study the functions of art in history and in contemporary society. The role of the museum will be explored as will the use of technology in art.**

**Understanding, appreciating, and discussing art will be an integral part of the learning process. Additionally art lessons will support District goals by reinforcing academic skills.**
