

## King Arthur Online

The specific directions to the students for each of the activities are on-line at the following web site:

[http://www.geocities.com/natpic\\_2000/](http://www.geocities.com/natpic_2000/)

The links are the same as the ones given in the teacher unit, but the specific directions to the student are on the site.

The pages for all the links on the student activities were not printed out for this unit because of the many choices which the student will make about his research. Thus, knowing what to print out is impossible.
