

Award for CSP #09-39 Credit Monitoring and Identity Restoration Services

The Board of Trustees tentatively awarded CSIdentity the contract related to this Request for Competitive Sealed Proposals subject to the successful negotiation of a contract for the services proposed. CSIdentity had the highest scaled score resulting from the evaluation process applying the weighted criteria listed in the published and distributed CSP document. Upon the successful negotiation of a contract document, the Board will consider the acceptance of the contract as negotiated and, if the vote is affirmative, the award will then be complete.
