**ADDENDUM 1
CSP #09-09 WATER TREATMENT SERVICE**

Opening December 9, 2008, 2:00 P.M.

1. To my understanding this is a new bid for Water Treatment Service for Irving ISD. I need to know, who was the last Water Treatment Service vendor that was awarded this opportunity.

Answer: United Worth Hydrochem Corp.

2. What was their price on a monthly basis? If monthly price is not known, what was their annual price during their time of service?

Answer: Monthly price \$1,566.00 Annual price \$18,792.00

3. I did not see a site review option located in the bid package. I would like to get a “hands on” view of at least one of the sites, if not all, in order to get an understanding of what we would be potentially working with. This option will further help us provide a competitive bid for Irving ISD.

Answer: Site review will be a 9:00 a.m. on Tuesday, 12/2/08. Will start at the Irving High School Campus, 900 N. O’Connor Rd.

Enter South parking lot through South gate. Mechanical room is at the far Southwest corner of the campus. An Irving ISD vehicle and representative will be at the site. Opportunity to visit this site as well as others if so needed.
