The 3D World Around Us.....

Corbis.com

Every-day fun requires spheres.

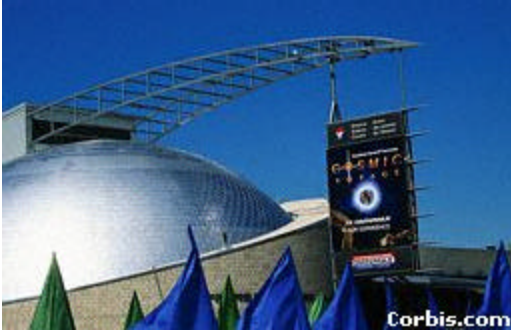

Corbis.com

Technology uses prisms to create art.

Corbis.com

Headstones of ancient graves used prisms to mark the dead.

Science is always coming up with new things to do, take this building for example, quite out of the ordinary, but still a sphere.

Everything is a prism, well almost. The English seem to have the hang of it.

History book: page# 354- woven baskets

Science book: page# 370- growing diamonds

The whole world is full of prisms and spheres, you just have to look. (I'm not sure if this was what I was supposed to do, but it'll have to do.)
