

Accessing the Internet at Home

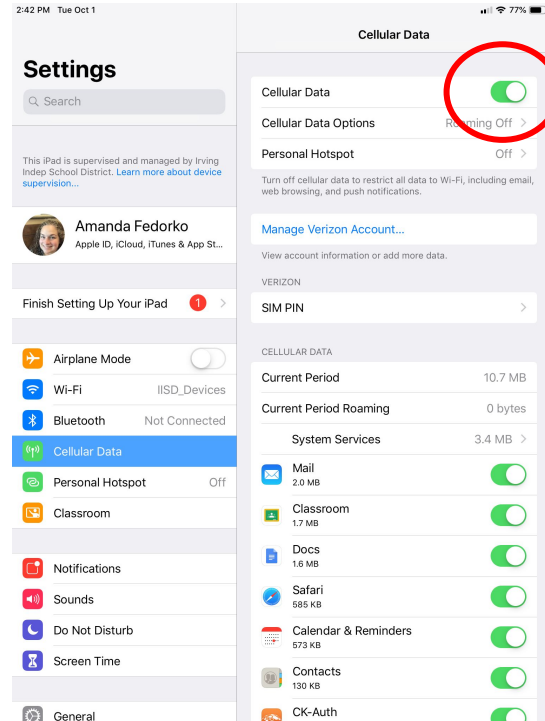

First, connect to your home Wi-Fi network OR turn on cellular data

Using your home - or other - Wi-Fi

1. Open your “Settings” app
2. Select “Wi-Fi”
3. Be sure that the “Wi-Fi” option is enabled (the switch at the top is green)
4. Select the name of your home network, or the network you are using
5. Enter the password for the network

Using cellular data

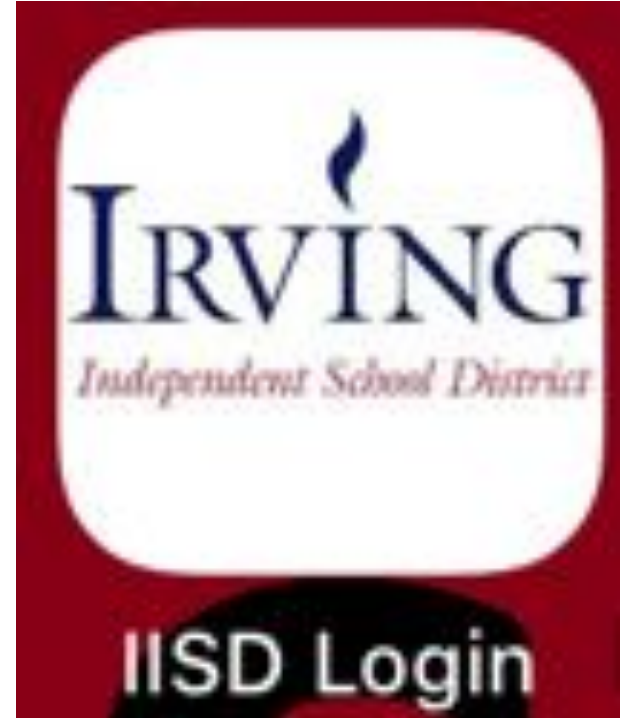

1. Open your “Settings” app
2. Select “Cellular Data”
3. Be sure that the “Cellular Data” option is enabled (the switch at the top is green)

Second, click the “IISD Login” app on your iPad

Login with your Irving Single Sign On (SSO) credentials as you would normally do.

Username: (first 3 letters of your first name + last name)

Password: ID number-p

Third, select your browser

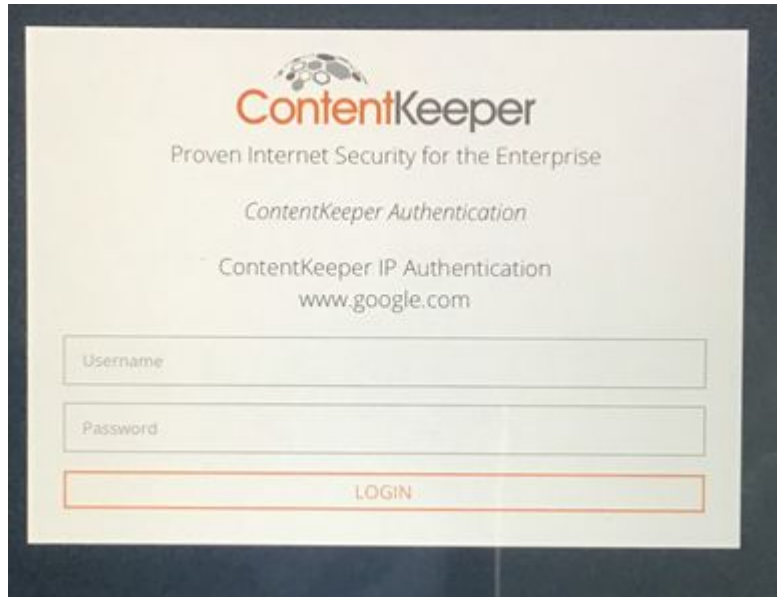

Safari

Google Chrome

If the web browser should show you the screen below, enter your student username and password (your normal login)

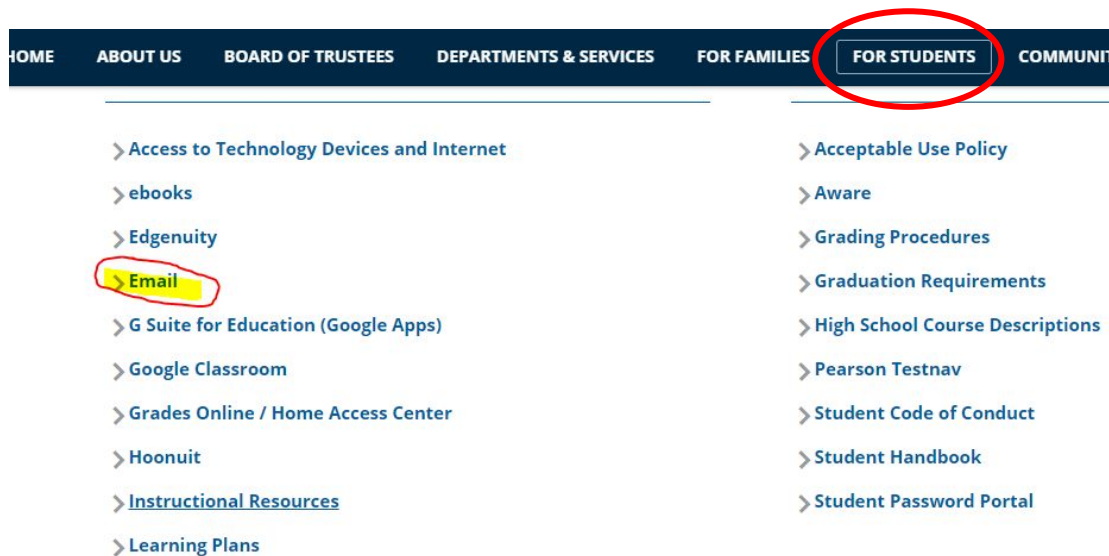

The image shows a web browser window displaying the ContentKeeper authentication interface. At the top, there is the ContentKeeper logo, which consists of a globe icon and the text "ContentKeeper". Below the logo, the text "Proven Internet Security for the Enterprise" is displayed. Underneath that, it says "ContentKeeper Authentication" and "ContentKeeper IP Authentication www.google.com". There are two input fields: one for "Username" and one for "Password". At the bottom of the form is a red "LOGIN" button.

Use the internet! You can now login to apps, websites, etc. Your login should be good for 24 hours.

NOTE: You may need to login to ContentKeeper every day. Be sure to do this if prompted.

Don't forget to check your email and Google Classrooms every day to see what your teachers have posted.

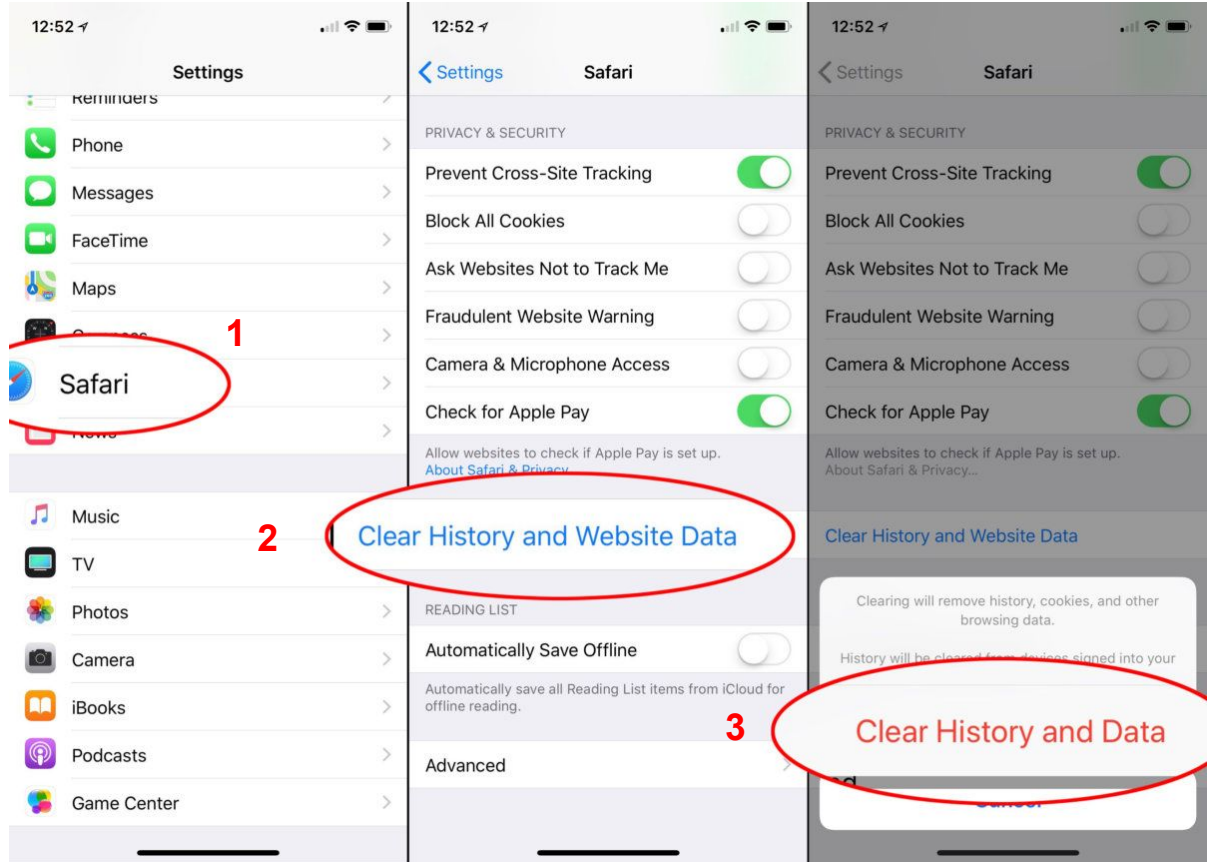

Remember, your email is found on the “For Students” tab of Irving ISD’s website.

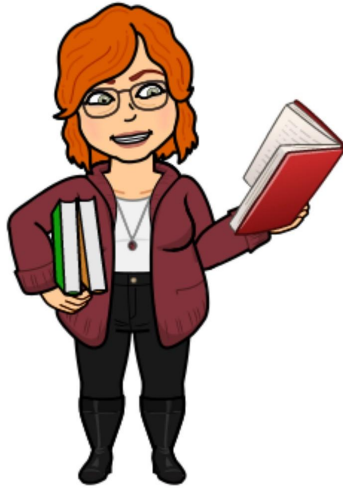

Troubleshooting:

Are you having trouble accessing the browsers? Sometimes it may help to clear your browser in the “Settings” app.

Follow the steps in the picture for both of your browsers.

Any other problems or questions?
