The instructional minutes are aligned to Savvas resource adoption.

Cross-Linguistic Connections

Cross-linguistic connections is a strategic method used by a teacher to help students connect what they know in one language (Spanish) with what they are learning in another (English). In addition to the 15 minutes of Story Time in English, the teacher will use the transition from Story Time to Literacy Circle to make cross-linguistic connections.

Language of Intervention

- Literacy = Spanish
- Math = Spanish
