(2nd grade)

Dear Brandenburg families,

We are looking for families with 2nd grade students who may be interested in a **free dental service**. Our school is collaborating with the Texas A&M College of Dentistry to provide dental sealants. Please take a moment to review the attached application form. We have a chance to provide this service to up to 50 second grade students. Many families may not want or need this service; however, if you are interested, we will be accepting applications on a "**first-come-first-served**" basis. Forms must be turned in directly to the school nurse, Christine Anjorin. If your application is accepted, an approval notice will be sent home. If you have not heard anything by October 4th or if you have any questions, please call the school clinic at 972-600-7108 to get more information or to find out if your application was accepted. Thanks in advance for considering this opportunity.

Best regards,

Christine Anjorin, RN
School Nurse

Free Dental Sealants

Permission and Release Form for Dental Screening, Dental Sealants, and Fluoride Varnish Application

A dental team from Texas A&M College of Dentistry, consisting of a supervising dentist and/or a registered dental assistant or hygienist or four senior dental students will be offering **FREE** sealants for children at this school. A dental sealant is a plastic coating that is applied to the chewing surfaces of the permanent molar teeth; this application protects the teeth from dental decay (cavities). A sealant is easy to apply and takes only a few minutes per tooth and requires no injection (shot). Sealants should be checked once a year. Please complete and sign this form for your child to participate.
