

## WORKERS' COMPENSATION PRIMARY TREATING PHYSICIANS / CLINICS

Under the Workers' Compensation program, an employee is entitled to choose their treating doctor; HOWEVER, that treating doctor must be approved by the State to treat patients under the parameters of the Texas Workers' Compensation program. Below is a listing of medical providers that are approved to treat under workers' compensation and that have an established relationship with the employees of our district. If you need assistance with selecting a treating doctor, this list below is offered as a recommended alternative to choose from in seeking medical treatment.
